Objective

Experienced full-stack web developer seeking to combine a passion for technology and programming with an innovative spirit and motivation to learn. I wish to contribute my skills in a team-based environment and create new development projects that provide an impactful experience and consistently adapt to evolving user needs.

Education

CODING BOOTCAMP CERTIFICATE | 7/2020 | UCLA EXTENSION, WESTWOOD, CA
· Acquired skills in full-stack web development and a wide variety of programming languages

BA IN COMPUTER SCIENCE (PURSUING) | 5/2022 | BOSTON UNIVERSITY
· Currently pursuing undergraduate degree in computer science

Skills & Abilities

TECHNICAL SKILLS
· Languages/Frameworks: HTML5, CSS, Javascript/jQuery, Node, Express, React, Python, MySQL, MongoDB

MANAGEMENT
· Having worked through high school and college, I am confident in my ability to juggle priorities and multitask efficiently. I prioritize an organized, well-planned workspace and time.

LEADERSHIP
· I consider myself a strongly active team member and contributor, often going beyond my responsibilities to fine-tune every project.

Projects

THE SPACEHUB | https://github.com/mykakugaya/project-space | https://the-space-hub.herokuapp.com/
· A space enthusiast's personal dashboard for all astrology-related information and news (main features include: widgets dashboard, interactive forum for logged in users, and a customizable image gallery)
· Responsible for application layout and functionality using React, CSS, and MySQL

JO THE FISH | https://github.com/sharlenemay/test-site | https://jothefish.com/
· Starter-up development using React and Firebase; JoTheFish Google Chrome extension and community platform to raise awareness of the various ethical standpoints of companies and websites
· Responsible for front end website development as well as back-end database connections

Experience

RESEARCH LAB ASSISTANT | BOSTON UNIVERSITY MEDICAL CAMPUS | 1/2019 - 12/2019
· Annotate videos of participants' sleep patterns using Python programming and present results weekly
· As head undergraduate annotator, responsible for teaching and guiding new undergraduate assistants
